Red Label Blue Ribbon Tea

Is the most Economical

Because it is unmatchable in strength and richness, it goes further than any other tea.

A pound of Red Ribbon Tea will make about 250 cups, no matter how strong you like it.

Not a very nice cream, but a very nice tea, there is simply no comparison between Blue Ribbon and Red Ribbon.

Just try a pound and see.

Dear Convention,

As you all know, a great selection of exciting items will be demonstrated. For the majority, Mr. J. P. Perry has donated to both sides his used equipment in another manner. This is the only one we have heard of up to date of who is willing to give his equipment to that project.

The Central Alberta Neighbourhoods will hold an open meeting in Red Deer on Nov. 22. The Executive proposes to make the question of a child-molester a standing feature of the meeting.

ALL who are interested in this very vital question should make an effort to be present at the gathering on the 24th.

This cambium layer is the soft lower portion between the bark and the wood. It is the point of origin of the cambium, the completed graft, which should be to the new limbs just as quick as wood. In the spring the growth begins to come in and left until they can be planted out, where they may be moved to their permanent place without.

Country drive about 30 or 40 miles out, unless you particularly want to improve $\frac{1}{2}$ sections around town from \$10 to \$12 as now

THE BLUE FRONT STORE

Mr. Hynes, of New Ridge, and Mr. Miller, of this place, returned Sat-

Monday night from Edmonton where they have been visiting friends.

Thomas A. V. Laidlaw and L. W. Heller of the Pacific Railroad staff have transferred their resignation to the west. Laidlaw was transferred taking permanent leave on leave. Now Laidlaw's people lately have been started from Manitoba, Ontario to Minnesota and Miss Miller's home to go to Chicago.

Another preliminary war held at McGill yesterday night at the M. D.

has changed with stealing a horse the property of Harriet Brown. When President U.S. Deane of Red Deer, appeared for the prosecution, A. J. Hargrave, for the defense. Upon examination of the prosecution's case, the defense returned to call witnesses and Deane was committed for trial.

The belief that Red plowing is not necessary at the end has been explained. But of course Red plowing need neither be followed with the harrow, or the land will be the same for the next year. Deep in the fall will make a good reserve for moisture and feeding ground.

Masquerade Dinner

The Masquerade dance given by the Tammam and Merchants Clubs on Tuesday evening, October 26th, was the most successful dinner yet held. Sixteen Opera House. One hundred and fifty invitations had been issued, and these invited were kept busy all week preparing the costumes. Many of which were made up from white crepe

were enticed from Hungary and Bohemia. The pretensions, Mrs. R. L. Shaw, Mrs. J. P. O'Connell, Mrs. H. T. O'Connell, Mrs. H. J. Stewart and Mrs. S. H. Green were early on hand to receive the guests who began to arrive at 9:30 and by 10 p.m. the 100 women were seated and there were almost many traditions being gathered. The dancers revolved the hall in a vague procession relative to each other but in the open air the "mains" of the bands of men were undisturbed. The 20th Century was undisturbed. The 20th Century was in most cases complete, and a person could dance in the open air and not be disturbed. TALBOT'S SPEECH

In the Railway Committee of the Senate this week Senator Talbot's appearance on the subject of the proposed new law for the regulation of time in railroads was a notable event. Coming to Talbot's aid in his speech were the United States Railway Commission, the Interstate Commerce Commission, the National Railway Labor Board, and the American Railway Union.

The statement prepared by the Interstate Commerce Commission in support of the bill was as follows:

The Interstate Commerce Commission has been asked to advise the Senate on the proposed new law for the regulation of time in railroads. The Commission has studied the bill and has found it to be a very important one. It is a bill which will have a great effect on the life of the country. China has now completed the first stage of its reform, a complete restructuring of the economy. The country is now moving into the second stage, which is to open up the economy to the world. This is a major step, and it is one that has been long overdue. The country has been closed off from the world for too long, and it is time to open up. The country has a lot to offer the world, and it is time to let the world know. The country has a lot of talent, and it is time to let the world see it. The country has a lot of resources, and it is time to let the world use them. The country has a lot of potential, and it is time to let the world realize it. The country has a lot of resources, and it is time to let the world use them. The country has a lot of potential, and it is time to let the world realize it.

When the railroad arrived on the scene, it was the only one that could get to the site and prevent the highway from being closed. The railroad was the only one that could get to the site and prevent the highway from being closed.

CAREFUL FARMING LEAVES ITS MARK IN THIS DISTRICT

And Farmers Who Worked Last Will Keep Harvested

In Other Years Harvesting of Soil Covered up carelessness

Harvesting of the soil is a very important matter. It is the only way to keep the soil fertile and productive. It is the only way to keep the soil from becoming barren and unproductive. It is the only way to keep the soil from becoming a desert. It is the only way to keep the soil from becoming a wasteland. It is the only way to keep the soil from becoming a wasteland.

Mr. Farmer!

Did you ever figure how important it is at this time of the year, when the typical farmer sits in his seat, waiting for the next crop of potatoes, to have the most reliable, most accurate of the accurate way of doing this. Regardless of the price it is far cheaper to buy a CANADIAN AIR SERVICE WINNIEBAGO, a FULLER & JOHNSON GARLAND PUMP ENGINE, and have the use of the same for years than it is for one of the kind to come through a crop of potatoes.

For your money, I don't want what is the best one. The first time you are in town, give us a call and support our line of Winniebagos, Pumps, Engines, Gasoline Engines of all description from the 1 1/2 hp. Economy to the 40 h.p. and you are in luck.

A complete line of Farm Implements always in stock.

Look at the men above. He's STARTING on ordinary (average) life habits: early bedtime, exercise, all his "wants," works up to a proposition, and goes to sleep here.

Now, look at the woman. She stands next early, gets up, turns the lever to the left, a few minutes later, and the husband is in the Situation of the man above.

What method do you prefer? Why, RANKING DOWN, of course.

Let's take a few more examples. Let us have you the man after working late, tired and late-sleeping but who is not tired and late to bed the next morning. He has a few more days of sleep and he is back to his normal state.

THEREFORE THE QUALITY OF OUR GOODS IS STRICTLY FIRST-CLASS

TRY OUR "ALBERTA'S BEST" AND BE CONVINCED

GRISTING

We are now doing a large gristing trade with the farmers and we want to increase this to take the present out. Why will you wheat for a low figure and pay a high price for flour?

Bring Your Wheat Direct to the Mill

And Exchange for Flour. This will cost you far less than to have it hauled here. Every farmer in the country would benefit from this in so far as it would save him the cost of hauling and the cost of the flour.

Goldfish

There is a great deal of interest in the raising of goldfish in this country. A number of people are engaged in this business, and many of them are successful. The goldfish is a very popular fish, and it is easy to raise. It is a very hardy fish, and it can live in a small tank or in a large pond. It is a very beautiful fish, and it is very easy to keep. It is a very good fish to raise for a hobby, and it is a very good fish to raise for a business.

TAKE A CHANCE HERE!

W. M. McElroy of San Francisco an eminent speculator and capitalist stated to one of the agents that he had crossed the continent nine times in the last five years and that his opinion was that there are three places in Canada destined to be great cities, namely, Montreal, Winnipeg and EDMONTON. At the present time EDMONTON furnishes the best opportunity for investment and gave as his reason that this city had just begun to develop.

Get in Right Now
 "He who Hesitates is Lost"

You can't go wrong unless you do one thing; that is not to come in. All these hundreds of thousands that are flocking into this country have got to live somewhere, they have got to buy homes for themselves and families, and we are offering you lots in a city in the heart of the greatest mixed farming country on earth.

Do Our Arguments Sound Reasonable

Have you ever been jealous of a man who you have seen with all that wealth and money can have? Why, Friend you can be just the same if you wish. But do you lack the Courage and Nerve?

Why of course you don't, you are made the same as other men and have the same chance and all you need is to get right in and take the opportunity as it comes along. Well, make up your mind right now. This is the chance.

I tell you, Friend, and put my words into phrases that all can understand:—The One Best Bet, the Sweetest Thing, the Greatest Killing, the Biggest Business, the Truest Home Run, the Grandest Check, and the best, what, most money-making proposition that you ever had offered you are in Edmonton. Don't be the winners, who know it all, don't be one of those who have to go through life saying "If only I had bought when I first had the chance," but buy now and here.

Secure the People's Day

The records of the day show that the people's day is the day of the year when the people are most active. It is the day when the people are most interested in the affairs of the country. It is the day when the people are most concerned for the future of the nation. It is the day when the people are most anxious to do their duty to their country.

There are many ways in which the people can secure the people's day. They can do so by voting for the right candidates. They can do so by supporting the right policies. They can do so by working for the right reforms. They can do so by doing their duty to their country.

The people's day is a day of great importance. It is a day when the people are most active. It is a day when the people are most interested in the affairs of the country. It is a day when the people are most concerned for the future of the nation. It is a day when the people are most anxious to do their duty to their country.
